S I R :

This is in response to the Restriction Requirement stated in the Office Letter dated **March 26, 2008**.

The Examiner requires that claims of either Species I or Species II be elected for prosecution. Applicant elects to prosecute Species II, a mechanical resonator with capacitive actuation via an electrode that vibrates "in a resonance mode at a same resonant frequency as the vibration body" as shown in fig. 11B. The claims which are currently believed to correspond to that species are claims 6 and 19-21. Applicant accepts the Requirement for Election of Species. This election is made without traverse.

Respectfully submitted,

Lawrence E. Ashery, Reg. No. 34,515
